

## DMK-ERP's 17 Sided Dimensional Enquiry

DMK-ERP's 17 Sided Dimensional Inquiry is the basis for the extensive live reporting available within all components of the system. All stock movement and all associated financial information can be analyzed with extreme detail giving operations a holistic view across the *entire* retail value chain. Further, DMK-ERP's Inquiry design has the following features:

- Real-time, or near real-time conditions enabling true stock visibility
- Non owned stock visibility (stock on PO, inter-company transfers, etc.)
- 280 standard reports
- Custom report writer
- One repository of data = one version of the truth
- Reporting to the lowest level of the organisation structure
- Highly flexible to accommodate future business changes and reporting requirements
